IMPORTANT SAFETY NOTICE

Adamstown Show Society will endeavour to assist and co-operate with exhibitors regarding safety. However exhibitors shall accept absolute responsibility in respect of the control and behaviour of all their exhibits at the show.

Exhibitors shall be solely responsible for all legal liability arising as a result of any injury or damage caused by an animal, their property or under their control at the show.

Therefore the exhibitor and trader must effect appropriate policies of insurance to indemnify the Adamstown Show Society, its officers and members, against any claim, action or proceedings brought against it as a result of the negligence or breach of duty of the exhibitor or trader.

Signed: Adamstown Show Society

NB: Due to Health and Safety recommendations; it is regrettable that all commercial stands trading in children's toys are not permitted on Show grounds.

IMPORTANT NOTICE TO ANIMAL OWNERS INVOLVED IN SHOWING ANIMALS

*** The Irish Shows Association would advise all Animal owners who have their animals insured to have the Insurance cover extended to cover them while showing Animals at Shows. We understand that it costs very little or nothing at all, depending on who you have insurance cover with.**

*** The reason for giving you this advice is that if your animal lashed out, and injured someone or damaged someone's property, and it is established that your animal was out of your control at that time, you may be held responsible or partly responsible for any injury or damage caused. You may end up paying all, or part of, any settlement reached.**

Equine Identification

All Equines (which include horses, ponies and donkeys) must be identified in accordance with EU and national legislation.

- It is an offence to be in possession of an equine that is not properly identified.
- Equine passports must be issued by approved Passport Issuing Organisations (PIOs) not later than 12 months from the date of birth of the animal and, in any event before the equine leaves the establishment of birth for a period exceeding 30 days, except in limited circumstances. The passport is valid for the lifetime of the animal. A list of the PIOs approved by the Minister for Agriculture, Food and the Marine is set out in Appendix 5.

- Microchip - all equines issued with a passport after 1st July 2009 must have a corresponding microchip implanted by a veterinarian, the details of which are recorded in the passport and in the central equine database, thereby creating a link between the passport and the animal.

In respect of each equine in their care, a keeper must ensure that:

- the equine is registered with an approved PIO;
- the animal's passport is issued in accordance with EU and national legislation;
- they are in compliance with the provisions of the legislation whereby the passport issued in respect of the equine must accompany the animal whenever it is moved to events such as shows, sales and to slaughter plants, etc.
